

Seaway Heavy Lifting

Stanislav Yudin heavy lifting vessel

The renovation of the STANISLAV YUDIN was carried out to ensure a lifetime extension of 10-15 years.

Specifications

- ✓ Two drive systems for propulsion drives 3,200 kW, each consisting of:
 - ✓ Transformer 12-pulse supply of frequency converter
 - ✓ Low voltage frequency converter
 - ✓ New propulsion motor 3,200 kW
- ✓ Drive systems for thruster drives 1,400 kW, each consisting of:
 - ✓ Transformer 12-pulse supply of frequency converter
 - ✓ Low voltage frequency converter
 - ✓ New propulsion motor 1,400 kW

Amongst other things, Bakker Sliedrecht took care of the replacement of 4 drive systems, the replacement of the accommodation systems and renewal of the crane operator's cabin. We also took care of the replacement of the remote controls of the existing azimuth propulsion and bow thrusters. This turnkey project was delivered in only 5 months.
