

Spare parts delivered quickly worldwide

A defective part in your installation can have a huge impact on your operation. It is impossible to keep spare parts of all the components in your installation. At the same time a long delivery time of a new component can lead to high costs of downtime. Bakker Sliedrecht is the supplier for fast delivery of all your electric and electronical parts. As an independent system integrator we are able to supply all brands and types. We offer fast delivery times and tailor-made services to your needs. Bakker Sliedrecht also offers a repair service for broken components.

Highlights:

- ✓ Fast quotation and delivery
- ✓ One-stop-shop for all your parts
- ✓ Consultancy for unavailable parts
- ✓ Reduce transports
- ✓ Reduce administrative handlings

Sales engineers with operational experience

Our experienced sales engineers are well acquainted with the daily operations on board a vessel and can advise you on how to keep your electrical installation in best condition. We can also advise you on equal alternatives in case original parts are not available or obsolete. Thereby Bakker Sliedrecht offers spare part management consultancy. You can rely on a fast and easy service because we keep close record of all engineered installations and delivered shipments. This offers you peace of mind while maximizing your business continuity.

Wide rang, fast quotation

Our experienced sales engineers are always able to provide a fast quotation to enable you to make decisions quickly. We work independent so you can order all possible brands and types. On your request we can even offer products that are not included in our standard delivery program. Bakker Sliedrecht is truly your one-stop-shop for all your electric and electronic parts. We are registered with Shipperserv to make the order process easy for you.

Fast worldwide delivery

We offer fast and efficient delivery because we can send combined shipments, thanks to our effective cooperation with suppliers. Our broad experience with international transport results in fast handling by customs. We deliver within the desired time frame and with the (custom) packaging you desire, including your requested encoding. You will benefit from receiving shipments fast when needed, while reducing transports and administrative handlings to a minimum.

Spare parts contract

Bakker Sliedrecht offers the possibility of a spare parts contract. You can order directly, saving time on RFQ's and improving delivery times and traceability. You will receive one combined invoice, saving costs on supplier management.
